

## Plan B for Business Owners Facing Bank Account Closures

Second Residency + Business Continuity for Smoke Shops, Convenience Stores, Gas Stations & Cash Heavy Retail

What happens if your business bank account gets closed tomorrow? Many retail businesses rely on a single bank or processor without realizing how quickly policies can change.

- A second residency outside one banking system
- A continuity structure separating ownership from operations
- Reduced dependence on a single bank or processor
- Compliance first planning designed for stability — not shortcuts

This is not about moving your business. It's about making sure one decision somewhere else can't shut everything down here.
